The Firms dealing in Food Grains.

Enquiry No. 2338.

KIBBLED HORSEGRAM, ETC.

GENTLEMEN,

Quotations will be received by the Stores Purchase Committee for the supply of Kibbled Horsegram, etc., free from dust and other impurities, to the Hebbal Farm, Bangalore, during the year 1937-38.

The approximate quantities required during the year are noted below :—

Description of articles	Quantity required	Rate	
		Per unit of	Rs. a. p.
1. Kibbled Horse gram	12,000 srs.	Per bag of 100 srs.	
2. Wheat Bran	6,300 lbs.	Per bag of 140 lbs.	

The price to be quoted should be for free delivery at the Hebbal Farm, Bangalore, subject to the following conditions of contract.

Quotations should reach the undersigned on or before the 30th June 1937.

Conditions of Contract for the supply of Kibbled Horsegram, etc., to the Hebbal Farm.

The Stores Purchase Committee do not bind themselves to accept the lowest or any tender.

2. Tenders should be for supply of only good and cleaned grain, free from all kinds of impurities and suitable for being consumed without further cleaning.

3. The quantity specified in the enquiry is only approximate. The actual quantity to be purchased will be more or less. The contract will be deemed to be limited to the quantity actually drawn on indents during the period of contract.

4. Tenderers should specify rate per unit specified which should include all charges for free delivery at the Hebbal Farm, Bangalore. Samples of grain offered should also accompany the tenders in two sets.

5. The rate quoted should hold good for a period of two weeks from the date fixed for receiving the tender. Withdrawal from tender before the above period or after acceptance of the tender is communicated, due to whatever causes, will entail forfeiture of earnest money deposited in connection with the tender.

6. For the due fulfilment of the contract, the successful tenderers will be required to execute a stamped agreement within a week from the date of receipt of intimation that their tenders have been accepted and to deposit as security an amount equal to 5 per cent of the value of the order, failing which the earnest money referred to in the following paragraph will be forfeited to Government and the order cancelled immediately.

7. Tenderers should remit a sum of Rs. 100 as earnest money to the State Huzur Treasury with the accompanying challan form duly filled in and the fact duly noted in the tender. Any tender not complying with this condition will not be considered. Earnest moneys will be returned to parties after the tenders are disposed of in the case of unsuccessful tenderers but in respect of successful tenderers only after the requisite security deposit is furnished.

8. The contract will run for a period of one year from the date of order. The contractor whose tender is accepted should be prepared to supply the material in strict conformity to the approved sample on indents from the Superintendent of the Hebbal Farm, Bangalore, within the time specified in the indents. All unsatisfactory supplies will be rejected.

9. No application from the contractor for any enhancement of the prices accepted by the Committee, due to whatsoever causes, will be entertained during the period of contract.

10. Should the contractors fail to comply with any of the conditions detailed above, the contract will forthwith be cancelled and the security deposit forfeited to Government. The contractors will further be bound to make good to Government any loss which may arise from their failure to supply the articles contracted for or by Government having to purchase the articles specified in the contract in the local market at higher rates than those contracted for.

11. The Stores Purchase Committee may, at their discretion and within the limits of the approved rate, determine the relative price of any articles that may not, in their opinion, be found up to the standard of quality required, but accepted by the indenting officer on ground of urgency or other causes.

12. Should any question arise respecting the quality of the materials supplied or the manner of performance of the contract, the contractors should agree to abide by the decision of the Stores Purchase Committee.

13. Tenders should be sent in sealed covers superscribed "Tender for the supply of food grains to the Hebbal Farm" and delivered before 5 P.M. on 5th July 1937, addressed to the Secretary, Stores Purchase Committee, Bangalore.

No. S. P. C. 24031-50, *dated* 17*th June* 1937.

To

The Firms dealing in Electrical Switchgear.

Enquiry No. 2340.

OIL CIRCUIT BREAKERS FOR POWER SUPPLY TO THE PAPER MILLS AND CEMENT FACTORY AT BHADRAVATI.

GENTLEMEN,

I write to request you to quote your best price and earliest time of delivery for the following materials.

Two—Automatic, direct current solenoid operated, remote controlled, triple pole, single throw trip free, oil circuit breaker; 600 amps., 5,000-volts, 25 cycles. The breaker shal, be equipped with closing and tripping coils mounted on the breaker with auxiliary contact switches and will be controlled from a 115-125 volts D.C. control bus.

The breaker shall be suitable for mounting on 1½" pipe frame-work.

Each phase of the breaker shall preferably be housed in a separate chamber with its own cover, contacts and operating rod. The contact blades in the breaker shall be of copper with renewable trips and arcing fingers so that the current carrying surfaces are not subjected to the burning effects of the arc.

The breaker shall be furnished with stud and cable terminals suitable for taking in .576" dia. cables.

The rupturing capacity of the breaker shall be not less than 75,000 KVA. at rated voltage.

The breaker shall withstand a standard operating duty of O.C.O. plus O.C.O. cycles at a two minutes interval without any injury to its mechanical or electrical parts.

The breaker shall be capable of using No. 6-C. transil oil and the quotation shall include the cost of necessary oil for the first filling.

The breakers shall be tested before despatch according to the latest standards of the A.I.E.E. or B.E.S.A. and test certificates will have to be furnished along with the supply.

Detailed specifications of the materials together with illustrated pamphlets relating to the same should be furnished with the tender.

As the materials are required urgently the earliest possible delivery should be specified and the same should be strictly adhered to in the event of an order.

The price to be quoted should be for delivery, c.i.f., Madras.

This enquiry will close on the 15th August 1937.

No. S. P. C. 24318-37, *dated* 17—18*th June* 1937.

To

The Firms dealing in Fire Extinguishers.

Enquiry No. 2341.

FIRE EXTINGUISHERS.

DEAR SIR/GENTLEMEN,

Please be good enough to intimate your best prices and the earliest time of deilvery for the materials described in the undermentioned schedule in the form printed below.

It should be distinctly understood that the acceptance by us of your quotation will be subject to the following conditions:—

Withdrawal from the quotation after it is accepted or failure to make the supply within the specified time or according to specifications will entail cancellations of the order and purchases being made at your expense from other sources in addition to the levy of a penalty of 3 per cent of the value of the order as and by way of liquidated damages. In such an event, the Stores Purchase Committee reserve the right to remove your name from the list of approved firms.

The quotations should be superscribed "Quotations for Fire Extinguishers for use in Electrical Stations", with the above enquiry Number.

This enquiry will be closed on the 12th July 1937.

Schedule.

Enquiry No. 2342.

ELECTRIC PUMPING SET FOR NEW GUESTS' MANSION, MYSORE.

GENTLEMEN,

Please be good enough to intimate your best prices for delivery f.o.r., Mysore and the earliest time of delivery for the materials described below :—

One Motor driven pumping set consisting of the following :—

Pump :—One centrifugal pump capable of delivering 100 gallons a minute against a head of 500′ from all causes.

The pump should be made of hard grained cast iron casing and fitted with phosphor bronze impeller and neck rings and bushes mounted on stainless steel shaft working in ball bearing at the ends.

The pump should be further fitted with pressure and vacuum gauges, priming, drain cock, etc.

The pump should be of the horizontally split casing type to enable easy dismantling for inspection and overhauling.

The pump is to be supplied with a foot-valve and strainer suited to the suction diameter of the pump and the delivery side of it to be fitted with a non-return valve and a sluice valve suited to its delivery side.

Motor :—The pump is to be driven by a suitable electric motor running on 220 volts, 3 phase, 25 cycle, A.C. system.

The motor to have drip proof casing, working in ball bearings and provided with ample ventilation as it is to work at a temperature of about 100° F.

The motor and pump are to be mounted on a common base plate and to be directly coupled by means of flexible couplings and bushes.

The above motor driven unit to be supplied with suitable starting switch board and panel fitted with volt-meter and ammeter.

Spares :

Pump :—One set of neck rings, bushes.
One set of two bearings.
One impeller.

Motor :—One set of bearing.

It should be distinctly understood that the acceptance by us of your quotation will be subject to the following conditions :—

Withdrawal from the quotation after it is accepted or failure to make the supply within the specified time or according to specifications will entail cancellation of the order and purchases being made at your expense from other sources in addition to the levy of a penalty of 3 per cent of the value of the order as and by way of liquidated damages. In such an event, the Stores Purchase Committee reserve the right to remove your name from the list of approved firms.

The quotations should be superscribed "Quotations for Electric Pumping Set for New Guests' Mansion, Mysore," with the above enquiry Number.

This enquiry will be closed on the 26th July 1937.

ELECTRIC PUMPING SET FOR HASSAN WATER SUPPLY.

GENTLEMEN,

Please be good enough to intimate your best prices and the earliest time of delivery for the materials described below.

It should be distinctly understood that the acceptance by us of your quotation will be subject to the following conditions :—

Withdrawal from the quotation after it is accepted or failure to make the supply within the specified time or according to specifications will entail cancellation of the order and purchases being made at your expense from other sources in addition to the levy of a penalty of 3 per cent of the value of the order as and by way of liquidated damages. In such an event, the Stores Purchase Committee reserve the right to remove your name from the list of approved firms.

The quotations should be superscribed "Quotations for Electric Pumping Set for Hassan Water Supply" with the above enquiry Number.

This enquiry will be closed on the 20th July 1937.

Specification for one Electric-driven, direct coupled Centrifugal Pump for Hassan Water Supply.

One Multi stage centrifugal pump capable of pumping 180 gallons per minute against a total head from all causes of 200 feet, continuously throughout 24 hours.

The casing to be made of hard and close grained C.I. preferably horizontally split, so as to enable easy removal for inspection.

The shaft may be made of best Siemen Martin steel or if possible, stainless steel. The Impellers, guide vanes, neck rings, glands and bushes, should all be made of hard phosphor bronze. It should be of a double entry self-balanced type so that there may be no end thrust on the shaft. The pump must be fitted with a suitable ball thrust bearing to take up residual end thrust if any. The pump should be fitted with pressure and vacuum gauges, air release cocks, drain cocks and priming Tundish.

It should also be supplied with one Glenfield and Kennedy foot valve and strainer on the suction side and one sluice valve and one non-return valve with bye-pass connections, for use on the delivery side.

The pump should be directly coupled to a suitable Electric motor by means of flexible pin couplings and on a common C.I. base plate, with foundation bolts, etc., for fixing.

The motor should be capable of running on 3 phase, 25 cycles, 220 volts, A.C. system. It should have 15 per cent to 20 per cent of over load (continuous) capacity. The motor should be of drip proof type and supplied with a switch gear, incorporating one ammeter, one volt meter and no-load and overload releases.

The above pumping set should be quoted F.O.R., Hassan.

Time of delivery should be clearly specified.

Yours faithfully,
T. RANGASWAMI,
Secretary,
Stores Purchase Committee.
